EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Popa on September 20, 2006.

The application has been amended as follows:

IN THE CLAIMS:

- In claim 30, line 7, change "the means for modulating" to –the broken loop resonator–.

Art Unit: 2874

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional U.S. patents listed on the attached form PTO-892 disclose optical modulators having resonator electrodes but are not considered particularly relevant to the claimed invention.
